Quote for Construction E-Commerce Website

Prepared for: Ta Mab

Prepared by: Ouk Lymeng (Project Coordinator)

Date: June 14, 2025

Project Summary

Development of a mobile-first e-commerce website tailored for the construction sector, featuring product catalog support for 4,000+ items, 400+ connected users/suppliers, account management, shopping cart, call center-based order confirmation, and payment information capture.

Technology Stack

Layer	Technology
Frontend	Nuxt.js (Vue.js Framework)
Backend	Spring Boot (Java)
Database	PostgreSQL

Scope of Work

User Features

- - User registration/login (via email and phone number)
- - Product browsing and filtering by category
- - Add to cart and place orders
- - Checkout process with call center confirmation
- - Capture basic payment information

Admin Features

- - Admin dashboard
- - Product and category management
- - Supplier/user management
- - Order management & reporting

General Features

- - Mobile-first responsive design (80% mobile usage expected)
- - Basic SEO setup
- - Testing and deployment
- - User and admin manuals (optional)

Team Structure

Name	Role	Responsibility
Ouk Lymeng	Project Coordinator	Communicates with client and manages project schedule.
Pheap Sreypich	UI/UX Designer	Designs the website layout and user experience.
Heng Rosa	Frontend Developer	Develop responsive website using Nuxt.js
Song Savoeun	Backend Developer	Develop backend API and logic using Spring Boot

Timeline (Estimated: 3 Months)

Phase	Duration
Planning & Requirement Gathering	1–2 weeks
UI/UX Design	2 weeks
Frontend Development	3–4 weeks
Backend Development	4–5 weeks
Integration & Testing	2–3 weeks
Deployment & Final Handover	1 week
Total Project Duration	Approximately 3 Months

Cost Estimate

Fixed Project Fee: $3,000

Includes:
- Full development of the e-commerce website (frontend + backend)
- Admin panel development
- Testing, deployment, and minor post-launch support (within 14 days)

Website Hosting & Domain Setup

To support the construction e-commerce platform, we recommend hosting the website on a reliable cloud server located in Singapore (DigitalOcean or similar). This location ensures fast and stable access for users in Cambodia and across Southeast Asia.

Hosting Details

- **Provider**: DigitalOcean (Singapore region)
- **Type**: Cloud Virtual Server (VPS)
- **Specs**: 2 vCPU, 4 GB RAM, 50 GB SSD storage
- **Purpose**: Handles all parts of the website including customer browsing, vendor management, and order processing
- **Estimated Cost**: **$47/month** (paid directly to provider)

Additional Services

- **Domain Name**: Approx. **$10–15/year** (e.g., yourstore.com)
- **SSL Certificate (Paid)**: Approx. **$30–50/year** for a secure HTTPS connection

***Note**: Hosting, domain, and SSL fees are not included in the project cost. These are paid directly by the client to third-party providers.*

Maintenance & Additional Services

To keep the system secure and updated after launch, and to ensure new users receive confirmation messages when signing up, we offer the following ongoing services:

Annual Maintenance

- **Fee**: **$300/year**
- **Includes**:
    - Monitoring server and SSL health
    - Technical support if issues occur
    - Security improvements and backups

SMS Notification for User Registration

- **Fee**: **200 Riel per SMS**
- SMS is used to confirm new user registrations
- You will be billed based on actual usage (monthly or periodically)

***Note**: These are not included in the fixed project cost. They are billed separately based on usage or on an annual basis.*

Payment Terms

• 50% upfront payment ($1,500)
• 50% upon final delivery and approval ($1,500)
• Payment via: [Bank Transfer / PayPal / Wise – specify as needed]

Quote Validity

This quote is valid for 14 days from the date of issue.
